

Plate dispenser for installation into a worktop, for storing \varnothing 190 - 260 mm round plates in one stacking compartment. The dispenser is made in a robust and hygienic design, from high-quality stainless steel. Open design for installation from above with shelf frame. Open, single stacking platform compartment in plastic-coated rod design to prevent crockery discolourations. Stacking compartment features three plastic-coated crockery guides, variably adjustable without tools. Consistent output height thanks to manually adjustable stainless steel tension spring system. Easy to clean stacking compartment from above and via a cleaning opening in the base plate.

The Hupfer in-counter plate dispenser EBR-V19-26 has an adjustable guide that protrudes 57 mm above the support frame which can be fixed in a base plate, and the use of non-rusting stainless steel springs that are easy to insert and remove provides optimal adjustment options for different crockery diameters and loads.

DIMENSIONS

400D x 400W x 650H mm Single Stacking compartment
